BURROUGHS ANNOUNCES THE 80 HOUR WORKDAY.

Thanks to an ingenious productivity tool from Burroughs called the Logic and Information Network Compiler, or LINC, computer programmers can now increase their productivity as much as 10 times! (In some cases, even more.)

It's like getting an extra 72 hours of work in a day.

How is this possible?

do manually so it drastically reduces the time it takes to develop and implement even complex application systems. (It also simplifies program maintenance.)

Furthermore, LINC uses a new high-level language that defines problems in business terms, not computer terms, so important information can be easily created and

At Burroughs, productivity has always been a primary consideration, whether it's the technological innovation of our hardware or the advanced design of our software.
